

www.SolutionGunControl.com solves most Issues with GUN crime and tracking to <http://www.SaveAllNations.com>

For Immediate Release

December 27, 2014

www.TheTruthVault.com and www.HostageForProfit.com are reality.

Gun control has always been the #1 issue of governments and citizens since the invention of gunpowder by the Chinese thousands of years ago. Americans own more guns per capita than any other nation based on our heritage of conquering the last frontier continent known as North America described as United America on www.NewZion2.com

The patent pending Gun Control trigger lock is a simple blue-tooth and/or WiFi driven interlock mechanism that secures the trigger mechanism of any gun. SolutionGunControl (henceforth codenamed SGC) uses a USB power cord and wall transformer to maintain backup battery and actively reports the serial number of a unique gun with 24x7 'keep-alive' monitoring transmission through any wi-fi / blue-tooth router or telecommunications device such as a cell-phone, tablet, PC, or dedicated two way monitoring device. A PLC (Programmable Logic Controller) is an optional patented device in event a direct link is necessary similar to the current Medical Alert systems that use cell data transmission or land-line phone links to monitor the elderly and disabled.

SGC is monitored by any web camera or video recording device that reports the visual and audio status of the gun (or gun collection) to the owners personal computer or electronic device as well as streams the 'secured/un-secured' status to a electronic internet 'cloud' database known as an electronic Lock-Box. These Lock-boxes are located at the local police station as well as a private data collection company such as www.Dropbox.com

SGC is controlled by electronic transmission by authorized access codes by the owner. Finger print identification similar to the current Apple iPhones is a patented option. The user can then insecure their gun within seconds to go hunting, defend their house, or simply maintain peace and order over their own household and land. In the event of any crime occurring, the lock box video/audio record clearly shows when each gun was secure and when it was in unlocked status. This prevents MOST GUN CRIMES from occurring by systematically showing proof of use.

The use of video911.mobi universal application would prevent tragic events in our nation's history such as the Rodney King incident, Ferguson Missouri, O.J. Simpson, and many others.

Keith's knowledge comes from direct experience as a victim of kidnap, fraud, and attempted murder. View the shocking details at www.FollowKeith.com versus UNlocracy.com as Keith now travels to Asia, JerUSAlem, and Vatican for obvious reasons with SAFE PASSAGE and SAFE HAVEN guaranteed by all nations.
